REGULATORY ISSUES AND MRO ROLE  
(Approximately 50% of the exam items are within this competency area)

COMPETENCY STATEMENT
The MRO must be and remain knowledgeable about applicable rules including federal MRO guidelines, and federal agency regulations which impact organizations for whom the MRO evaluates drug test results. The MRO is often called upon to assist clients in the implementation of legally defensible policies and programs. Therefore, the MRO must be able to advise organizations about both regulated and non-regulated drug and alcohol testing procedures. Knowledge in the area of regulatory issues and MRO responsibilities will enable the MRO to:

• interact effectively with other program participants, including: employees, employers, DERs, SAPs, TPAs, other health care workers, laboratories and collection sites.
• advise employers in the development and implementation of effective workplace substance abuse prevention program policies and procedures in both regulated and private sector settings.
• comply with applicable laws and federal regulations in the review, interpretation and reporting of drug test results, including confidentiality, documentation, record maintenance and storage, and release of information.
• develop a standard operating procedure for conducting an effective MRO interview which complies with applicable regulations.
• recognize and address the major legal and regulatory issues that face the MRO, other service providers and employers in the establishment and implementation of drug testing programs.
• serve as an expert consultant or witness on matters involving drug testing.
• adhere to and uphold the professional code of ethics relating to drug testing.
• evaluate and help manage collector services, laboratory services, and other services in the program to ensure reliability, confidentiality, efficiency, appropriateness, and promptness of these services in response to the employer’s needs.
